Abstract

This research article found that: (1) The quality of facilities and infrastructure at SMK AL Huda Turalak has an average rate of 46.83 classified as medium clarification because it is in the range of scores between 46.15 to 52.00; (2) The learning interest of SMK AL Huda Turalak students has an average of 47.32, it is included in the medium category because it is in the range of scores between 46.15 to 52.00; (3) There is an influence between the quality of facilities and infrastructure on students' interest in learning at Al-Huda Turalak Vocational School. This is obtained from the analysis of SPSS 20, from the analysis it is known that the sig (2-tailed) value of 0.001 <0.05, then H_0 is rejected and the correlation coefficient value of 0.405 is classified as moderate interpretation. From the data above shows that there is an influence between the quality of facilities and infrastructure on students' interest in learning PAI at Al-Huda Turalak Vocational School. Then the correlation is $r = 0.405$ or 40.5%, and the number lies in the number 0.410-0.60, meaning the correlation is $r = 0.405$ or 40.5%, and the Y variable is moderate. While 59.5% of student interest is influenced by other factors.

Abstrak

Artikel penelitian ini menemukan bahwa: (1) kualitas sarana dan prasarana di SMK AL Huda Turalak mempunyai nilai rata-rata sebesar 46,83 tergolong pada klarifikasi sedang karena berada pada kisaran skor antara 46,15 sampai dengan 52,00; (2) Minat belajar siswa SMK AL Huda Turalak mempunyai rata-rata sebesar 47,32 maka termasuk kategori sedang karena berada pada kisaran skor antara 46,15 sampai dengan 52,00; (3) Terdapat pengaruh antara kualitas sarana dan prasarana terhadap minat belajar siswa di SMK AL-Huda Turalak.
